

Company Overview

Ecocarrier is a Canadian licensed operator for international telephone service provisioning to resellers of Ecocarrier's managed (retail) services in more than 75 countries worldwide and to carriers for wholesale call termination services.

Additionally, Ecocarrier provides to traffic aggregators and large corporations real time SMS delivery service for millions of SMS to worldwide destinations as well as SMS-based specialty services including Premium SMS and SMS Short Codes.

Value-enhanced managed services include SuperMVNO Program for Single-SIM Mobile Roaming with Optimum Savings, Mobile Dialer, GSM-based Mobile CallShop, IP-based CallShops, PC-to-Phone, Call Back Call services, Prepaid and Postpaid Service for corporate and residential users.

All Ecocarrier service platform and feature-rich applications for the managed services are powered by QiiQ's intellectual property in softswitching, billing and specialty mobile applications.

Technology / Products / Service Overview

Ecocarrier provides an extensive range of value-added managed services in VoIP and GSM roaming space for making and receiving international calls at greatly reduced rates that represent savings of 55%-90% compared to rates charged by the incumbent mobile operators.

Ecocarrier's SuperSet www.superset.mobi, SuperSim www.supersim.mobi, OMNI Payphone www.omnipayphone.com and OMNO service www.omno.mobi managed services cater to mobile users' needs in all situations for making international calls at great savings when roaming in 198 countries.

Ecocarrier's 011save www.011save.net / 00save www.00save.com service is designed for use by residential and/or business users as a convenient and reliable alternative to the home-country fixed line and mobile service operators' services for making international calls with great savings.

Ecocarrier supports more than 1500 Q-CallShops www.qcallshop.com worldwide that cater to more than 2 million migrant workers in Middle East, Africa and Latin America and handle some 40 million minutes monthly of high quality call traffic with excellent remote management facilities and the best service support in the industry.

Carrier Relationships

Ecocarrier prides itself on the excellence of technology that support its managed services and the high standards of its service for call completion including call origination and call termination that are switched to and carried on only premium service routes.

Ecocarrier has extensive carrier relationships with all major carriers and has secured direct contracts with incumbent telephone companies of various countries and possesses some direct routes to many hard-to-reach countries for reliable high-quality call termination.

Ecocarrier seeks to have carrier relationships with all who can provide us with reliable good call termination service at competitive rates. We are particularly interested in bilateral relationships where you can take advantage of the well appointed and continually monitored good service routes that we can offer for reliable, high-quality call termination service.

Partnering Opportunities for Ecocarrier Managed Services

Ecocarrier seeks to form strategic alliance partnership with suitably qualified companies and individuals who want to become resellers to sell international telephone services and roaming mobile telephone service for making international calls.
