

Q-InCity-DID™

In-City DID Service – A Value-Add Service Feature

Designed for all non-facility-based ITSPs and Resellers
To offer in-city local-call access service in targeted markets

Outstanding Attributes

- DNIS (Dialed Number Identification Service) is delivered with the call dialed to the In-City DID Number
- ANI (Automatic Number Identification service) is also delivered with the call dialed to the In-City DID Number
- EcoCarrier offers customized services based on the DNIS and ANI per subscriber account to ITSP and Resellers. These services include
 - Call Termination to Directory Numbers in A-Z destinations worldwide - useful for targeted in-city Prepaid Calling Card service
 - Hot line Service whereby an incoming call is instantly connected to a telephone number, fixed or mobile, specified by the subscriber
 - Voice Mail Box service (optional)
- Q-InCity-DID is currently for use in the following cities – more are being added every month

New York
Paris
London
Madrid
Amsterdam

Frankfurt
Brussels
Zurich
Milan

Costs & Benefits

- Subscriber pays a one-time set-up charge, a small monthly service fee and a per minute charge.
- Resellers of Q-InCity-DID can now offer call termination and other targeted services with decent profit margins.
