The Business Opportunity!

- Set up and run a center locally, to deliver a range of Telematics enabled services using QiiQ global platform.

- Provide a range of Transport analysis services and solutions which results in much higher productivity & efficiency for customers.

- You could thus become a part of a huge and profitable growing business network and earn month on month revenue.
Why

- Pay as you grow (SaaS)
- Vertical wise application modules
- Vertical wise customized solution
- Hardware independent platform
- Solution centric approach
- Global technology platform
- Local support
- Onsite support by trained resources

About

- Best of the minds in telematics industry with 50+ man years of experience adding value to the platform
- Successfully operational in 54+ countries across Africa, Middle-East, South East Asia, CIS and India
- 82+ successful service delivery partners across these countries
- Over 1600 renowned happy end customers
- Continuous Innovation in technologies and application
Global Presence ….

in 54+ countries and still growing...
Partial List of End Users...
Why it is a good business?

- Assured Monthly Cash flows
- Proven & Profitable model across the globe
- Low risk & Minimal investment
- Get started in few days & Early breakeven
- No worries on technology
- Ready and expandable market
- Complete business hand holding by experts
- Can use existing infrastructure & people
The Technology Platform
Windows like user Interface. Click Start, and click any module you want.
Keep track of the physical location of your vehicle in real time and make necessary decisions.
View the current location of your vehicle on a map zoomed right down to street level and make decision on path selection.
Know your vehicle history, where it has travelled in any specified time period.
Maintenance Modules

Reduce unnecessary inventory and improve overall workflow

Track performance, costs, warranty information of tire and make management decisions about which tire to purchase based on performance and costs
The Report & Analysis
Types of Reports and Analysis

Make business more effective with the help of live reports and analysis.
Motivate your drivers by giving incentives
Monitor the total distance covered by vehicle (hour by hour)
QiiQ™

Benefits to Parents and Schools
Get real-time information about your mining vehicles, total trips, distance travelled, stoppage time and make necessary decisions.
Challenges in the Mining Industry

- Tracking Driver’s attendance
- Real time information about each and every truck
- Operational transparency
- Obtaining intelligent data to support strategic decisions
