

Call-Through Prepaid Telephone Service

What is PPCC Dialer?

PPCC-Dialer app that makes it easy and convenient for the user to dial a destination using our prepaid calling card or PIN service in a call-through dialing operation.

Unique Features

Encrypted and secured handling of the PIN that is to be configured by the user in the PPCC-Dialer App for the convenient automated operation of making a call by prepaid call-through operation;

With this feature, the PIN is not visible to anyone after it is configured in the PPCC-Dialer App and yet it is effectively transmitted to the prepaid calling card service platform when a call is made by the user.
