TMU no-code workflow

The image shows a mobile application interface for TMU no-code workflow. On the left is a dark sidebar with the title 'TMUDFD' and a user profile 'MichaelQiiQ'. Below the profile are icons and labels for 'Bots', 'Flow' (highlighted in orange), 'Theme', 'Knowledge Sources', and 'Settings'. At the bottom of the sidebar are 'Light' and 'Dark' theme toggle buttons. The main area displays a white 'Edit node' dialog box. The dialog has a 'Close' button in the top right corner. It contains the following fields: 'Node title' with the value 'Get Advice API'; 'Endpoint' with a dropdown set to 'GET' and a text field containing 'https://api.adviceslip.com/advice'; 'Headers' section with two input fields labeled 'Header-Name' and 'Header-Value', a trash icon, and an 'Add header' button; 'Params' section with two input fields labeled 'Param name' and 'param value', a trash icon, and an 'Add param' button; and 'Body type' at the bottom. A 'Confirm' button is located at the bottom right of the dialog.
